What can the U.S. learn about democracy from Latin America?

## Wed., October 26, 7–8:30 pm

The U.S. champions itself as the fountain of democracy, yet numerous states are enacting new measures to suppress voting. How do U.S. elections compare with those in other countries in the Americas? What lessons are to be learned? **Dr. Sharat G. Lin** will discuss his experiences as an election observer in México, El Salvador, Cuba, Venezuela, Ecuador, and the U.S. states of Georgia and California.
